COLORS

Color is a powerful element of any brand, and your distinct palette will create a strong first (and lasting) impression in the minds of your prospects and customers. Your primary palette is composed of 6 colors. It is critical that these colors be used correctly, so please be precise when reproducing a color. Use caution when introducing any other colors to your designs.

Color builds have been provided to the right for accurate color reproduction.

PRO TIP: Color can shift across material substrates and computer screens. For any professionally printed materials, we recommend working closely with a professional printer and getting physical proofs to ensure the best color match.

VALUE PROPOSITION

The value proposition answers the key question that arises in a customer’s mind when presented with your brand: “Why should I buy your product or service?” To answer that, your value proposition should show that you have identified a need (whether realized or not) and then demonstrate how you will fill that need. Knowing this is foundational to creating a differentiated brand position and a solid marketing strategy.

BRAND STORY

Your brand story offers a concise, compelling overview of your brand: who you are, what you stand for, and what you offer that no one else does. It is designed to connect with your audience through a combination of rich storytelling and interesting facts.

Bossy Beulah's is the culmination of five solid generations of chicken sandwich makers. Our great Aunt Beaut, who was born in 1906, is the one who elevated our family's chicken sandwich craft to an art form. We fondly dubbed her Bossy, but as Aunt Beaut was famous for saying, "You can get away with being bossy when you're right." And Bossy Beaut was always right – especially when it came to making her world famous fried chicken sammie.

In the spirit of Aunt Beaut, we are one thing...a no-nonsense chicken sandwich. Our all-natural chicken raised by Joyce Farms is served spanking-fresh, dipped in buttermilk and breaded by hand to seal in the juices. We add just enough seasoning to complement the natural chicken flavor without stealing the show (because nobody likes a show-off). To top it off, we pair it with a potato bun, signature house-made pickles and mayo (Duke's, of course). To avoid any distraction, we keep our side game simple: hand-cut fries, hand-cut slaw.

Everything we do is in honor of our great Aunt Beaut. Her legacy is the heart and soul behind Bossy Beulah's simplistic menu, bold brand and inviting space. That's exactly how Bossy would've liked it. And like we said, Bossy is always right.

09.

ORIGIN STORY

Sometimes, there's enough story to separate and build upon the history of the company a little more. Your origin story shares more about the founders and/or key staff, why and when the company was started, and other key historical points that create a stronger connection to the brand.

Like a lot of folks in this area at the turn of the last century, Aunt Beaut worked long hours in a textile mill making history. She was one of 12 siblings. She kept her curls tight, wore a simple strand of pearls, and peered at you through her cat-eye glasses. She weighed 90 pounds drippin' wet and she certainly never suffered a fool for very long. We playfully called her bossy, but really she was just someone who could (and should) take charge.

Aunt Beaut was no-nonsense, but she was also all-loving. Her meticulous cooking was actually an expression of her strong feelings towards the ones she loved, a quiet act of service that didn't go unnoticed by a young Jim Noble. From time to time, Aunt Beaut would step in as Jim's caretaker when his parents were away. For supper, she would always prepare her world famous chicken sammies.

Everyone has a version of Aunt Beaut in their life. And sometimes, in a busy world full of endless options, all you want to do is head over to Aunt Beaut's house so she can take care of you with one thing, a fried chicken sandwich.

That's where we come in.
